Fariz Abdurahman Fakhri

Full-Stack Developer

Jakarta, Indonesia | +622128931604 | farizabdurahmanfakhri@gmail.com | LinkedIn | Github

SUMMARY

A highly motivated software developer with a background in Graphic Design and a strong drive for continuous learning and adaptability. Skilled in full-stack web development with JavaScript, TypeScript, React, Redux, Node.js, Express.js, GraphQL, REST API, PostgreSQL, and MySQL, and experienced with Git, GitHub, GitLab, and Vite. Equipped with development expertise from HariSenin and a foundation in Informatics Engineering from Indraprasta PGRI University. Committed to becoming a resilient web developer who proactively seeks growth and learning, while leveraging strong communication and coordination skills to make a positive impact on the technology industry.

WORK EXPERIENCE

PT Astro Technologies Indonesia, Indonesia

Quality Assurance | *August 2025 – Present*

Inspect and check fresh products in accordance with company quality standards

- Inspected the condition and quality of incoming fresh products against company quality standards, ensuring only products that met requirements moved on to distribution.
- Resolved product-related complaints by investigating the cause, coordinating with the relevant teams, and following up until each case was closed.
- Processed supply orders to return damaged or unsellable stock to the warehouse, keeping inventory records accurate.
- Verified and received vendor goods arriving at the hub by cross-checking them against purchase orders and documenting any discrepancies.

PT Grafika Tritunggal Lestari, Indonesia

IT Support Staff | *September 2023 – March 2025*

Managing office hardware and performing troubleshooting and problem-solving when issues arise.

- Managed office devices and supported the modernization of existing equipment, keeping hardware reliable and up to date for daily operations.
- Conducted routine device maintenance, including system and hardware cleaning, to ensure uninterrupted staff workflows.
- Troubleshot and resolved technical issues reported by staff, restoring their productivity quickly.
- Developed and updated company websites on the Joomla platform to keep them interactive, modern, and up to date.

PROJECTS

EduCourse | *Full-Stack Developer* | *August 2026*

An educational website featuring categorized videos.

- Developed the application end to end: a React (Vite) frontend styled with Tailwind CSS and a Node.js/Express.js REST API backed by MySQL.
- Implemented user authentication and protected access using JSON Web Tokens (JWT).
- Managed client-side state with Redux Toolkit to let users browse videos by category.

Tech stack: React, Vite, Tailwind CSS, Redux Toolkit, Node.js, Express.js, MySQL, JWT

Demo: VideoBelajar

MyPorto | *Full-Stack Developer* | *September 2026*

My personal portfolio website.

- Designed and built a personal portfolio website to showcase projects, skills, and experience.
- Developed a REST API with Node.js and Express.js, with data stored in SQLite.
- Built the user interface with HTML, CSS, and JavaScript.

Tech stack: HTML, CSS, JavaScript, Node.js, Express.js, SQLite, REST API

Demo: PortofolioFariz

OpenBoard | *Storage, Export Engine & Performance* | *August 2026*
An offline-first digital whiteboard with a hand-drawn style, built in a team of three. Responsible for the storage and export layer.

- Set up IndexedDB persistence with Dexie.js and a Redux middleware that autosaves board state with a 2-second debounce.
- Implemented JSON export of board data.
- Collaborated with two teammates to keep boards available without a network connection.

Tech stack: React Native, Redux, React, Express JS, Apollo Server, PostgreSQL
Demo: OpenBoard

SKILLS

Languages: JavaScript, TypeScript, Python, SQL, HTML & CSS
Front End: React JS, React Native, Redux Toolkit, Tailwind CSS, jQuery
Back End & Database: Node.js, Express.js, GraphQL (Apollo Server), REST API, PostgreSQL, MySQL, SQLite
Tools: Git, GitHub, GitLab, Vite, Joomla
Soft Skills: Communication, Coordination, Teamwork, Problem Solving, Adaptability, Continuous Learning

COURSE AND CERTIFICATION

HariSenin, Indonesia *Full Stack Developer Program HSBC/FSD/020/20260906042 July 2026 – August 2026*

- **Learned:** front-end development with React and Redux, back-end development with Node.js and Express.js, REST API and GraphQL, relational databases (PostgreSQL, MySQL), JWT authentication, and version control with Git.
- **Projects:** EduCourse (full-stack video learning website) and OpenBoard (offline-first whiteboard, team of three).
- **Final Project:** VideoBelajar-app, To-Do-List
- **Achievement:**

Certificate: *Full-Stack Developer, HariSenin.com, issued September 2026*

EDUCATION

SMK Grafika Desa Putera, Indonesia *Graphic Design (GPA 3.48/4.00) June 2020 – May 2023*

- **Relevant Coursework:** *Typography, Digital Illustration, UI/UX Design, Print Production, Computer Graphics*.
- **Activity:** Led the Student Representative Board to oversee student organization activities and voice student aspirations.
- **Final Project:** **Cover Album**, **Box packaging**
